About SNU

Link (<https://en.snu.ac.kr/index.html>)

As Korea's leading research university, Seoul National University is committed to diversifying its student body and faculty, fostering global exchange, and promoting path-breaking research in all fields of knowledge. Seoul National University honors the ideals of liberal education and aims to teach students a lifelong love of learning that will form the basis for continuous personal growth. It was founded in 1946 as the first national university of Korea.

Seoul National University is recognized for its world-class research performance throughout a wide range of academic fields. Each college and school runs its own research centers, while the university directly runs six institutes for large-scale interdisciplinary research. About 50 research teams are selected as government-funded research centers.

2021-22 THE World University Rankings: =54th (overall), 9th (Asia)

2022 QS World University Rankings: 36th (overall), 18th (Asia)

About SNU Department of Computer Science and Engineering

Link (<https://cse.snu.ac.kr/en>)

The Department of Computer Science and Engineering at Seoul National University is a globally recognized leader that shapes this new frontier with Korea's unique socio-economical derives. The department offers a unique educational opportunity for students to achieve excellence in both scientific discovery and technological innovation through classes and participation in cutting-edge research. Both master's degree and doctoral degree programs in Computer Science and Engineering are offered by the department.
