The Graduate School at Shenzhen, Tsinghua University, was jointly founded by Tsinghua University and the Shenzhen Municipal Government for cultivating top level professionals and carrying out scientific and technological innovations.

Directly affiliated with Tsinghua University in Beijing, the Graduate School plays an important role in Tsinghua's commitment to achieve international prominence. The new campus is located in the University Town of Shenzhen, set amidst the natural beauty of Xili Lake and the Tanglang Mountain.

GSST comprises 7 divisions in different areas in Science and Engineering (Life Science and Health, Energy and Environment, Information Science and Technology, Logistics and Transportation, Advanced Manufacturing, Social Sciences and Management, Ocean Science and Technology).

About MPhil/PhD Programs in GSST
